WEDNESDAY EVENING, SEPTEMBER 16, 1885.

PRICE THREE CENTS

COUNTERFEITERS BEWARE.

A Michigan Concern Enjoined.

[From the Rochester Morning Herald.]
The following injunction has been obtained by the Hop Bitters Company, of Rochester, N. Y., against Collatinus D. Warner, of Reading, Michigan, prohibiting him from manufacturing or selling "German Hop Bitters."

The President of the United States of America to Collatinus D. Warner, of Reading, Mich., his servants, workmen, salesmen and agents, and each and every one of them:

Whereas, it has been represented unto the Justices of our Circuit Court, the Hon. Stanley Matthews, and the Hon. Henry B. Brown, at Detroit, within and for said district, sitting as a court of Chancery, that you, Collatinus D. Warner, are manufacturing and selling a medicine named German Hop Bitters, in fraudulent imitation of the Hop Bitters made and sold by complainant; your said medicine being devised, calculated and intended to mislead the public into purchasing such counterfeit goods as the manufacture of the complainant.

We therefore, in consideration of the premises, do strictly enjoin you, the said Collatinus D. Warner and all and every the persons before named, from using the words "Hop Bitters" on any fluids contained in bottles so as to induce the belief that such fluids are made by complainant; and further, from manufacturing, selling or offering for sale, any bitters or other fluids in the bottles and with labels, and in the general form in which you were manufacturing and selling the bitters, called by you German Hop Bitters, on the filling of the bottles, or in any other bottles, or with any other labels contrived or designed to represent or induce the belief that the bitters or fluids sold by you are the goods of the complainant, until the further order of the court.

Witness:

THE HONORABLE MORRISON R. WAITE,
Chief Justice of the United States.
At Detroit, this 15th day of July, A. D. 1885.
Walter S. Harsha, clerk.
[L. S.]

Prosecute the Swindlers!!!

If when you call for Hop Bitters the druggist hands out anything but "Hop Bitters" with a green cluster of Hops on white label, shun that druggist as you would a viper; and if he has taken your money for a bogus stuff, indict him for the fraud and sue him for damages for the swindle, and we will reward you liberally for the conviction.

See U. S. Court injunction against C. D. Warner, Reading, Mich., and all his salesmen, agents, druggists, and other imitators.

AT IT AGAIN.

The Puritan and Genesta sail Into Sea.

By Telegraph to THE SENTINEL.

SANDY HOOK, Sept. 16.—This is the day appointed for the Puritan and Genesta to sail a race to sea, twenty miles windward and return from the Scotland light ship. They may be successful in recovering the course within the allotted time. The wind at 9:30 was blowing from the west at the rate of eleven miles an hour with probabilities of its decreasing. The weather is clear.

The preparatory signal has just been given. The wind has freshened and is now blowing at the rate of fourteen miles an hour from the west. The sea is smooth.

11:17 a. m.—The Genesta crossed the starting line at 11:04:32 and the Puritan at 11:05:30.

SANDY HOOK, 11:15 a. m.—The wind is increasing. It is now blowing fifteen miles an hour from the northwest. The yachts are heading east to southeast.

11:17 a. m.—The Puritan is gaining on the Genesta.

11:25 a. m.—Yachts are off Sandy Hook light ship. Their positions are about the same as at the start. The wind is blowing sixteen miles per hour from west to northwest.

11:46 a. m.—The Genesta is leaving Puritan somewhat now.

12:50 p. m.—The Genesta is leading Puritan by about half a mile.

SANDY HOOK, Sept. 16.—The Genesta turned the stake boat at 1:05:20 and the Puritan at 1:07:32.

THE PURITAN AHEAD.

1:50 p. m.—The Puritan is now leading the Genesta.

1:35 p. m.—The Puritan had not set her top sail. The Genesta was to windward of the Puritan and gaining all the time. It was thought the Puritan was crippled.

1:38 p. m.—The wind was blowing thirty-six miles per hour, north to northwest. It is cloudy.

1:54 p. m.—The weather has set in thick, shutting the yachts from view.

2:25 p. m.—Both yachts are still on part tack, standing northeast. The Puritan is about a mile ahead.

2:30 p. m.—The yachts are now about ten miles east of Sandy Hook light ship. The Puritan is to windward and ahead, but it is impossible to judge the distance. The wind is blowing thirty-seven per hour.

2:48 p. m.—The Puritan is a mile to windward and ahead.

COMING HOME.

3:05 p. m.—The Genesta has every sail set but for reasons unknown the Puritan fails to set her top sails. Her crew, however, appear to be making efforts to that end.

3:10 p. m.—The yachts are on the last tack and are about even. The wind is blowing at the rate of twenty-nine miles an hour from north to north west.

AN EVEN THING.

3:20 p. m.—Both yachts are now about two miles northeast of Sandy Hook light ship. It is impossible to tell which is ahead, but the Puritan is to windward.

3:28 p. m.—The Puritan has only her main sail and jib set. The Genesta carries jib, main and top sail, which is all she can lug. The Puritan is standing up straight as a stake.

3:35 p. m.—The Puritan crossed the Genesta's bow a little outside of the bar. They are now going towards Scotland light ship.

The Puritan is a quarter of a mile in the lead.

AMERICA WINS.

New York, Sept. 16.—The Puritan wins at 4:50 this afternoon.

A Bank Robber Caught.

By Telegraph to THE SENTINEL.

ATTICA, N. Y., Sept. 16.—A bold attempt was made here this morning to rob Loomis & Sons bank. Assistant Cashier Barrows was overpowered and

the thief was escaping with \$800, when he was stopped by A. J. Loris, who after a lively tussle captured him and placed him in the hands of the police.

Democrats Nominated.

By Telegraph to THE SENTINEL.
CINCINNATI, Sept. 16.—The democratic county convention has completed the nomination of state senators as follows: M. F. Wilson, J. C. Hopple, John Brashears and Robert Kuchner.

TOGETHER AGAIN.

The Army of the Cumberland Meet.

By Telegraph to THE SENTINEL.

GRAND RAPIDS, Mich., 16.—The society of the army of the Cumberland began its seventeenth annual reunion in this city to-day. About five hundred members are in attendance. Among them are Gen. P. H. Sheridan, president of the society, General Cist, secretary, General Fullerton, treasurer, General Miessey, who will deliver the oration to-night, General Georgian, General Poe, General Barnett, Colonel Shoemaker, General E. Innes, Colonel Fox, General Cutchson, Gen. Henry Stone, General Pierce and General Swayne. A movement is on foot to annex the sons of veterans.

ONE MORE.

A Crooked Postmaster Turned Out.

By Telegraph to THE SENTINEL.

WASHINGTON, Sept. 16.—The president appointed the following presidential postmasters: Edward H. Thayer, at Clinton, Iowa, vice Chas. Poll, resigned; Henry Williams, Frederick, Md., vice Charles W. Miller, resigned; J. Henry Bowers, Chico, Cal., vice James M. Ormsby, suspended. The suspension of the postmaster at Chico, Cal., was made upon the inspectors report, showing a shortage of about \$2,000 in his accounts. The inspectors took possession of the postoffice and collected the amount of the shortage from the postmaster's bondsmen.

THE G. A. R. AND THE GRANT MEMORIAL.
S. S. Burdette, commander-in-chief of the G. A. R., to-day issued a general order in which the following is submitted to the members of that organization, in relation to the erection of a monument to the memory of General Grant:

First: That a sum of money, per capita, from each member of the G. A. R., in good standing, be received for the end named. That for the purpose of certainty and expedition this amount be appropriated from the post funds, to be reimbursed by the donations of individual comrades, or in such a way as each post may provide.

Second: That to suitably mark the event and to evidence for all time, the equal share of all the comrades of the Grand Army in this work of commemoration, a neatly written roll shall be prepared on blanks to be furnished from the national headquarters, which shall contain the name, rank, regiment and post of each donor. These to be returned to the national headquarters, bound into volumes and properly cared for, and that provision be made to furnish each post an engraving of the finished monument.

That the committee to be hereafter named shall, in connection with the national council of the administration, take into consideration and determine the form of the memorial to be adopted, the place of its erection and other necessary details.

Fourth: All moneys donated for this purpose to be forwarded through the department headquarters, and by him to be deposited to the credit of the Grant monument, under rules to be prescribed by the national council of administration.

It is being suggested that honorably discharged soldiers and sailors, not members of our order, be permitted to join with us in this most grateful duty, let all such who are worthy be invited, first of all, to stand in the ranks of the G. A. R. Our self-imposed task has in view the erection of a monument which avoiding all exaggeration or mere motive of display, shall be in keeping with the simplicity of the life and character of our great leader, shall be of such intrinsic excellence as shall commend it to the care of the nation, and thus through all succeeding generations be our memorial, as well as a monument to his fame.

On behalf of his comrades everywhere the commander-in-chief feels authorized to declare that whilst determined to erect a monument which shall solely represent their contributions, they nevertheless view with satisfaction, and will aid to the extent of their ability, all other patriotic efforts put forth to do him honor.

NEW FOR THEM.

Chamberlain Startles His British Hearers.

By Cable to THE SENTINEL.

LONDON, Sept. 16.—Mr. Chamberlain spoke at Glasgow yesterday and he took the ground that it was a matter of national importance that the coming parliamentary elections should result in seating a majority numerically strong enough to put down the Parnellites. Speaking on the subject of church establishment, Mr. Chamberlain said he was opposed to state interference with regard to religion. In this matter he was a liberationist. [Great cheering.] He was in favor of freeing the church in England and Wales from state control.

LONDON, September, 15.—M. Lessar chief of police of the Russian branch of the Afghan boundary commission, was interviewed before leaving London. He said that Zulcar pass was of no strategic importance. The eastern mouth of pass remains in Russia's possession. The Afghans might erect fort works if they pleased. There was no general desire among the Russians to attack Herat through the Zulcar pass.

A Mormon conference was held in London to-day. Delegates were present from Norway, Sweden, Germany and the United States. The delegate from Salt Lake City in an address boasted that Mormonism was spreading in England, Scotland and Wales, but admitted that small results were being met with in Ireland. He said there were six Mormon meeting houses in London and several thousand converts, and that since two years ago last January, 1,200 Mormon emigrants have been sent to Iowa and Utah. He predicted the defeat of the United States Government in its efforts to suppress polygamy.

At Doncaster meeting, a race for two-year-olds was won by Minting, Gay Hermit coming in second.

PARIS, September 15.—General De Courcy, commander of the French troops in Annam, telegraphed to-day to the minister of war from Hue to the capital of Annam, that Channang, who was proclaimed king of Annam yesterday, is the adopted son of Tudoe, Ex-emperor of Annam, and was installed as king at the general request of the people.

TOULON, September 15.—Two deaths from cholera were reported here last night.

BERLIN, September 15.—The Spanish note to Germany consists of two sections. The first section contains an apology for the insult to the German Embassy at Madrid. The second section recounts Spain's claims to the Caroline Islands.

MADRID, September 15.—There were 1,075 new cases of cholera, and 371 deaths, throughout Spain yesterday.

On a Strike.

By Telegraph to THE SENTINEL.

PITTSBURG, Pa., September 15.—At the coal miners' convention held at Monongahela City, to-day, it was unanimously resolved to demand three cents per bushel for mining. The strike ordered by the Knights of Labor, now has the hearty support of the miners' association, making it the most general ever attempted in this section of the State. A Monongahela City special says, the houses of two black sheep coal miners, in the 4th pool were destroyed by fire last night. The fire is believed to have been of incendiary origin.

Boiling Them Down.

By Telegraph to THE SENTINEL.

SAN FRANCISCO, September 15.—A horrible discovery was made in Chinatown, to-day. Information was given to the city coroner, that a frightful stench was being emitted from a cellar on Pacific street. He forced his way in and found the floor covered

with human skulls and bones partially covered with flesh, in the last stage of green putrefaction. In the inner room the coroner found a number of Chinese engaged in boiling down the remains of other bodies, while other Chinese were engaged in scraping the boiled bones and packing them in boxes for shipment to China. It is estimated that the cellar contained over three-hundred dead bodies, which had been taken secretly from the various cemeteries throughout the state. The coroner confiscated all the remains.

They will Have to Go.

RAWLINS, Wyo., Sept. 16.—The Knights of Labor have taken up the cudgel against the Chinese and their ultimate expulsion from the territory is probable. The white miners were told could go back to work this morning and will likely do so if there is no attempt to work Chinese with them. So far the Chinese have been afraid to go down into the mines and have consequently been idle since the riot.

Maryland Democracy.

BALTIMORE, Sept. 16.—The state democratic convention met to-day. J. Frank Turner had no opposition for the nomination for comptroller, nor Spencer Jones for clerk of the court of appeals. Resolutions adopted endorse the administration of President Cleveland and reaffirm the platform of the national convention of 1884.

They oppose the working of the present civil service system and demand reform so that subordinate positions shall not be filled by persons opposed to the appointing power.

Sale of Blooded Jerseys.

BOSTON, MASS., Sept. 15.—A glove fight was fought in the suburbs of Boston this morning between George L. L. balance and Peter McCoy, middle weights, which resulted in a draw after five desperate rounds.

Fatally Injured.

PITTSBURG, Pa., September 15.—A Chronicle telegraph from Sharon, Pa., says: By the bursting of a large fly wheel at the rolling mill of P. L. Kimberly & Co., at Greenville, Pa., this morning, two employees, Andrew Blum and John Fleck, were fatally injured. Flying fragments demolished the roof of the mill.

TO-MORROW A HOLIDAY.

To-morrow is the great day of the Northern Indiana Fair. There will be a general suspension of business in this city. The railroad shops, manufactories, public offices and schools will close and business houses will cut off their hours. THE SENTINEL will also observe the occasion and suspend publication. Its employees want to see the great fair and all have been furnished free tickets, while at the same time their wages go on.

He Deserves It.

The following circular was sent to this city this morning and explains itself:

ST. LOUIS, Mo., Sept. 15, 1885.
Mr. J. M. McConnell is appointed ticket agent of the Wabash, St. Louis, and Pacific railway, at Fort Wayne, Ind., from this date.

F. CHANDLER,
Gen. Pass'r and Ticket Agt.
Approved:
JAMES SMITH,
General Traffic Manager.

Mr. McConnell has long held the position in a subordinate way, but this order gives him exclusive jurisdiction and is an honor not often conferred. He deserves the recognition and THE SENTINEL is pleased at the gentleman's good standing on the great railroad.

They Will Never Tumble.

As a sample of THE SENTINEL's associated press report, for which it pays \$100 a month, we note a dispatch in last night's issue, stolen bodily from the Indianapolis Journal, without credit, and relating to the finding of the dead body of an infant at Wabash.—News.

When will these stereotype sheets learn that the Associated Press is an association of first class daily newspapers, all receiving the same telegraphic report and paying for its collection and transmission. Of course it was the same dispatch as published in the Indianapolis Journal, and for that matter, the same as published simultaneously with THE SENTINEL in the Chicago Times, St. Louis Republican, New York Herald and all other papers which are members of the Associated Press. The Associated Press gives the news, whether it is the death of a president, the burning of a city or the finding of a dead infant.

By Telegraph to THE SENTINEL.
ST. THOMAS, Ont., Sept. 16.—Jumbo, Barnum's \$300,000 elephant, was killed on a railroad track half a mile east of here last night. His keeper was leading him along the track to load him when a freight train came up behind unnoticed and ran him down. He was injured so badly he died in thirty minutes. The trick elephant, Tom Thumb, was also injured, his leg being broken.

TALMAGE'S RETURN.

The Brooklyn Preacher Arrives in New York From Europe.

By Telegraph to THE SENTINEL.
NEW YORK, Sept. 16.—The Rev. T. DeWitt Talmage has returned from Europe, after an absence abroad of over two months. The trustees of the Brooklyn tabernacle, together with about seventy-five of the reverend doctor's personal friends, met the steamer down the bay in a tug and escorted Mr. Talmage to Brooklyn. To a reporter Dr. Talmage said: "It was the best rest I ever had; I was entirely idle all the time. I preached four sermons, or rather eight, for each one had to be repeated to an outdoor audience. In Belfast I spoke to an audience of 40,000 people, the largest one I ever addressed or ever will. I found 'American' a password to everywhere and every one. I don't believe there is a nation in the world so popular in all countries as the United States."

Dr. Talmage was tendered a reception last evening in the Brooklyn tabernacle. Six thousand invitations were issued for it. The Rev. Henry Ward Beecher presided and the Rev. Drs. Spear and Ingersol were among the speakers.

One of them remarked, "I never realized the difference between stereotype plates and telegraph until this discussion came. I tell you it opened a good many eyes to the imposition." Let the great expose of second-hand plate papers go on.

THE SENTINEL is the true friend of the laboring man. It offered to increase the wages of its printers beyond the union scale if other city papers did likewise. Here was a chance for stereotyped publications to attest their love for the Knights of Labor. The offer still stands good. It only remains for stereotyped papers to say "we will do it" and THE SENTINEL will make its promise good.

"Mr. Charles Drummond, an employee of this office, has accepted a position on the Fort Wayne Gazette and left for that city last night. Mr. D. is a sober, industrious and highly respected young man, of high moral reputation, and an excellent companion in the workshop. 'Sandy,' as he is familiarly called here, carries with him to his new 'sit,' the best wishes of the News force from top to bottom," says the Huntington News.

The Delphos, Ohio, Herald has this notice of Mr. Will Shenk, now the guest of his sister, Mrs. Frank Falck, of this city. "Jr. W. J. Shenk, who has been connected with the firm of S. F. Shenk & Co., for more than five years past, resigned his position last week and will become a member of the firm of C. E. Shenk & Co., who will soon open an elegant store in the building purchased by C. E. Shenk, opposite the Phelan House."

Dr. Peters, who filled a star engagement hereabouts is now at Logansport. Dr. Peters was escorted to jail by the city marshal yesterday evening. The doctor was so drunk he could not navigate. For several days he has been making a disgusting exhibition of himself, but he has been placed where he will have abundant opportunity to sober up. He was attired in a broadcloth suit and silk plug hat, and was rather a tony looking "plain drunk."

Col. E. L. Chittenden is a great observer. He writes us: "Electric lights are great insect trollers. In passing some of them the other night I was astonished at the great number of bugs of all descriptions which had been trolled by coming in too close contact with the lights, while others were circling around the lamps and dropping dead faster than I could count them. Among the bugs I noticed some great big fellows, and the light proved as fatal to them as to the smaller insects."

A BIG SUCCESS.

The Greatest of All Northern Indiana Fairs Has a Fine First Day.

The Grounds Well Filled, the Interest General and the Races Exciting.

As predicted all along in the city press the Great Northern Indiana Fair is the biggest success of all the previous creditable undertakings of the association and the fine weather, which is expected to last all week, will fill the grounds each day.

The machinery in Power Hall and the other buildings was all in motion this morning. Some of the merchants were a little behind in arranging their exhibits, but by noon-time every preparation had been made and the crowds of people which greeted the first day exceeded in numbers the attendance of any first day of previous fair history.

Several of the railroads, notably the Nickel Plate, ran excursion trains. The fair had been thoroughly advertised and the increase in passenger receipts on all the roads leading into the city was approvingly noticed.

The crowds at the grounds have had a delightful day of it and have been engaged after a trip of inspection through the halls and to the cattle pens on the south side of the grounds in watching the affairs of the track. In the morning all of the horses were out for their exercise and there was many a smart brush between them, which the spectators greatly enjoyed, but the most noticeable item of interest was the appearance of the famous lady riders, Madame Marantette and Miss Myrtle Peek, who after exercising their stable of thoroughbred horses engaged in a spirited half-mile dash.

In the afternoon, as THE SENTINEL reporter was leaving the grounds, the judges were calling up the horses for the 3:00 minute trot. The track was in fine condition and fast time was expected. Full reports of this race and of the 2:45 pace and the half mile and repeat running race which are to follow will appear in Friday's SENTINEL.

TO-MORROW'S RACES.

Mr. Emmet Powers will give an exhibition trot of Wayne Wilkes, the celebrated four-year-old stallion, immediately after the races. This horse has one of the best pedigrees of any horse in the state.

THE LADIES' RACE.

The five mile ladies' race, with a change of horses at the end of each mile before the grand stand takes place on Friday afternoon. Don't miss this great attraction.

The large and fine display of live stock and poultry is greatly praised by visitors. The balloon goes up to-morrow. Prof Bonafanti is the most daring aeronaut alive.

Mr. W. D. Page exhibits his four pretty Shetland ponies. They attract much attention. They are not entered for prizes.

PROMINENT DISPLAYS.

The SENTINEL reporter in his trips about the grounds was much interested in the following splendid exhibits:

A GREAT INDUSTRY.

THE SENTINEL has made it a point to watch and foster home industries. It is not only the business of the newspapers, but the business of every citizen. In the Ninth ward is situated the Peters Box and Lumber company, one of the most successful manufacturing in Fort Wayne. The house has a branch store or salesroom on West Main street and three floors are there crowded with furniture and household goods. This company is doing an immense local business

and its reputation is going abroad. It establishes the fact that furniture can be manufactured and sold here for much less than it can be made abroad and shipped here. Besides a home house must keep its word or it goes under. But to come to the point we want to speak of.

On the third story of the main exhibition building of the great fair, will be found an exhibit particularly interesting to the lady visitors. Rare and choice works of art and home manufacture are there. Among the many, one deserving of special mention, is that of the Peters Box and Lumber Co. This exhibit consists of a fine set of bed-room and parlor furniture, a special feature being a patent folding bed. The article is neat and commodious. At night it can be extended so as to form a comfortable bed and in the morning be folded up and used as a book case. The bed-clothing is contained in a neat receptacle beneath and the head-board so constructed as to form a neat book case with shelves. Taken altogether it is the finest thing of the kind we have ever seen, as are all the articles exhibited by the Peters Box and Lumber Co., and being all constructed in Fort Wayne by this enterprising company are especially deserving of attention. Most of the articles of this exhibit are already sold—purchasers claiming them as soon as the fair is over. If Fort Wayne had more firms with the push and enterprise of this company it would be indeed blessed.

Mr. Wm. Pape is at the head of the Peters Box and Lumber company and he has managerial ability and the energy and capital to back his business. His facilities for the manufacture of the finest and substantial furniture are surpassed no place. A visitor at the fair who fails to look at the display of this firm on the third floor of the exhibition building misses a rare treat and one of the best features of the show. THE SENTINEL man has been there and knows.

C. A. PICKARD, & CO.

The finest display of stoves ever made in the grounds, is that of C. A. Pickard & Co., No. 29 East Columbia street. It is to be found in the west wing of the main building and occupies the center of the north side. That stoves have made so great an advance in beauty and utility is almost beyond belief, but an inspection of this wonderful display proves that "de world do move." Prominent among the other stoves shown, are the "Splendid" base burner in round and square patterns, the "Art Treasure" and "Splendid Diamond" both the very newest styles in art decoration for stoves, the Stewart rounds, shown in three sizes and just the things for heating offices and store rooms and the fine wood heating stoves, very ornamental, known as the "Mer. anth" and the "Coronal." The firm shows besides the "Splendid" range, and a multitude of other heaters of highly beautiful design which would grace any parlor in the land. THE SENTINEL urges its readers to not miss this splendid display of stoves. The crowd in front of it attests the interest felt in these inestimable articles of home enjoyment. The association owes much to the enterprise of the firm that makes such an elegant display and hopes for the continued prosperity of the establishment at 29 East Columbia street.

AULTMAN, MILLER & CO.,

of Canton, Ohio, have a splendid me-

chanical display in power hall. Mr. Frank D. Paulus, of East Columbia street is in charge. The exhibit is driven by steam and comprises the Buckeye Elevator, Low Down Binder, Hoosier Drills, David Bradley cultivators and the Hamilton cultivators. All of these machines are famous on the farm and have a reputation among mechanical experts that cannot be excelled. The drills and binders are excellent for lightness of draft and weight. The low down binder will pass through a ten foot gate easier than an ordinary binder will go through a fourteen foot gate. THE SENTINEL commends this exhibit to the careful inspection of the public, contenting itself with the remark that it contains the very best machines in the market.

HUNTER'S FARM GATE.

Just east of Power Hall will be found a farm gate of unusual utility. It was patented by L. C. Hunter of this county, and is so simple that any man of intelligence may construct and operate it. It elevates at the middle raising both ends from the ground any required distance avoiding snow. For stock it has no equal, and is the strongest and cheapest gate in use.

J. F. SIBERLING & CO.

Of Akron, Ohio, have no superiors as makers of agricultural implements. Mr. L. J. Bobilya, the general agent, resident of this city, will be found in charge of the extensive display to which the attention of farmers is invited. There are exhibited the Empire Elevator binder, "the only lightest binder made," and the Model Senior Mower. The claim is made for the binder that it is the lightest, easiest managed and simplest built, and Mr. Bobilya stands ready to substantiate these claims. The warehouse of the company is at No. 59 East Columbia street. These and other farm machines are to be found there in great variety.

Wm. Gause, the state agent at Indianapolis, made sales of over 1,400 Empire binders in Northern Indiana this year.

AMUSEMENTS.

Dan Sully's party gave "Capital Prize" at the Temple last night. This was the opening night and business was not encouraging. The play serves to introduce a number of specialties—some clever and some tiresome. It is the sort of attraction that raises the gloom, however, and many people appreciate it. The company play again to-night and will have a big house.

The "Two Johns" a very funny comedy, Messrs. J. C. Stewart and William Murray, the comedians, are great in their business. Vocalists of some merit are also with the company.

Purify your blood, tone up the system and regulate the digestive organs by taking Hood's Sarsaparilla. Sold by all druggists.

HUNTER'S FARM GATE.
Just east of Power Hall will be found a farm gate of unusual utility. It was patented by L. C. Hunter of this county, and is so simple that any man of intelligence may construct and operate it. It elevates at the middle raising both ends from the ground any required distance avoiding snow. For stock it has no equal, and is the strongest and cheapest gate in use.
J. F. SHERLING & CO.
Of Akron, Ohio, have no superiors as makers of agricultural implements. Mr. L. J. Bobilya, the general agent, resident of this city, will be found in charge of the extensive display to which the attention of farmers is invited. There are exhibited the Empire Elevator binder, "the only lightest binder made," and the Model Senior Mower. The claim is made for the binder that it is the lightest, easiest managed and simplest built, and Mr. Bobilya stands ready to substantiate these claims. The warehouse of the company is at No. 59 East Columbia street. These and other farm machines are to be found there in great variety.
Wm. Gause, the state agent at Indianapolis, made sales of over 1,400 Empire binders in Northern Indiana this year.
AMUSEMENTS.
Dan Solly's party gave "Capital Prize" at the Temple last night. This was the opening night and business was not encouraging. The play serves to introduce a number of specialties—some clever and some tiresome. It is the sort of attraction that raises the gloom, however, and many people appreciate it. The company play again to-night and will have a big house.
The "Two Johns" a very funny comedy, Messrs. J. C. Stewart and William Murray, the comedians, are great in their business. Vocalists of some merit are also with the company.
